ACADEMIC BACKGROUND

- **August 2023 - Present:** Current University of Michigan, Ann Arbor PIBS Ph.D. Candidate in Bioinformatics, Dual Degree MA in Linguistics
- **August 2019 - Dec 2022:** UC Berkeley undergraduate, B.A. in Molecular & Cell Biology: Genetics track, Statistics, and Linguistics
- **September 2016 - May 2019:** Rye High School

MAJOR RESEARCH PROJECTS

- **Aug 2023 - Present:** Current Project Studying ONT Long-Read Sequencing emphasizing information-theoretic approaches to quality validation of data and Differential Privacy in the context of longitudinal signals
- **May 2020 - May 2025:** Series of projects in Autonomous Biobots with Dr. Michael Levin & Gizem Gumuskaya of Tufts University. Published in *Advanced Science*:
<https://doi.org/10.1002/adv.202303575>, <https://doi.org/10.1002/adv.202409330>
- **Sep 2018 - April 2020:** Project in Bioelectricity with Dr. Michael Levin of Tufts University. Published in journal *Bioelectricity*: <https://doi.org/10.1089/bioe.2019.0034>
- **June 2021 - May 2023:** Project in Developmental Biology with Dr. Hernan Garcia & Yovan Badal of UC Berkeley. Studying the mechanism of Zelda binding sites in the Bicoid gene
- **May 2020 - June 2022:** Project in Computational Biology with Dr. Hernan Garcia of UC Berkeley. Studying the Coverage of Cis-Regulatory elements in Databases for major model organisms.
- **June 2017 - June 2018:** Project analyzing cognates in Old English, Old High German and Gothic to find meanings of prefixes: <https://doi.org/10.31235/osf.io/uvesa>
- **June - Aug 2018:** Summer Research project with Dr. Ching-Hua Chen at IBM working on using Random Forest regression to find causes of recall bias in college students: <https://doi.org/10.31235/osf.io/fyc2w>

COMPUTATIONAL/ STATISTICAL SKILLS

- Programming: Python, R, MIT App Inventor, Matlab
- Tools: MS Office Suite (Excel, Word, Powerpoint), Google Suite (docs, spreadsheet)
- R implementation of Markov Chains, PCA and Clustering
- Matlab & Python implementations of splines and other tools for interpolation.
- R & Python parametric and non-parametric hypothesis testing.

PAST RECOGNITIONS

- **August 2019:** National Merit Scholarship recipient

LANGUAGES KNOWN

- English, Hindi, Spanish (Advanced), German (Beginner), Old English (Beginner)
